INDIAN POPULATION
ARE
VISUALLY IMPAIRED**

Cataract

Blurred Vision

are the leading causes

735 million people
(60.7%) of India's
population are in working
age group 15-59 years

93% of them belong to
Unorganized sector
**Who are not covered
under any benefits**

Productivity loss
due to visual
impairment in India
is **646 billion**

Sankara Nethralaya's Occupational Optometry Services have been providing eye care to deserving unorganized sector workers since 2017 in various districts of Tamil Nadu, Kerala and Karnataka with the support from generous donors. These workers have been provided comprehensive eye care including visual acuity testing, refractive error assessment, anterior segment examination, non contact intraocular pressure assessment and undilated retinal examination similar to that of examination at a tertiary eye hospital.

Between 2017-2023 we have provided Occupational Optometry Services to about **15,561 unorganized** sector workers from various sectors across Tamil Nadu, Kerala and Karnataka at their door steps.

Support us to make them See and Work better

Number of Workers / Days of camp	Cost for Screening and Spectacle Dispensing
100 / 1	155000
500 / 5	775000
1000 / 10	1550000

- Cost is projected for providing eye care to the workers at unorganised sector. This includes providing them with camp organisation, eye examination and spectacle correction wherever indicated.
- The costs are subjected to vary depending on the number of workers examined. Appropriate bills / invoice will be provided for each variables.
